

RITIK RAJ

—ritiksingh28254@gmail.com — +91 6205201148 — LinkedIn — GitHub — Portfolio — Hajipur, Vaishali, Bihar, India

SUMMARY

Initiative-driven and detail-oriented professional with 3 years of hands-on experience in data engineering and cloud technologies. Skilled in building, managing, and optimizing data pipelines, cloud infrastructure, and ETL workflows. Actively focused on continuous learning and eager to take on challenging projects to deliver scalable and reliable data solutions.

EXPERIENCE

Virtusa Consulting Services Private Limited

May 2025 - Present

Engineer

Hyderabad, India

- Worked on AWS-based data engineering workflows.
- Developed and optimized SQL queries for data processing.
- Utilize GitHub Copilot and GenAI tools to enhance development efficiency and code quality.
- Built and managed ETL data pipelines using AWS, Apache Airflow, dbt, and SQL with strong focus on data quality and testing.

Virtusa Consulting Services Private Limited

January 2024 - May 2025

Associate Engineer

Hyderabad, India

- Developed and maintained scalable data pipelines using AWS services, Apache Airflow, and SQL.
- Collaborated in Agile teams to deliver high-quality software solutions.
- Optimized database performance and application efficiency through query optimization.
- Implemented reliable ETL workflows and data transformations using dbt with built-in testing and validation.

PROJECTS

Data Migration Azure to AWS | AWS, Python, SQL, DBT, Airflow, Gitlab, Azure, Testing

August 2024

- Optimized Airflow DAG performance by tuning task dependencies, retries, and parallel execution.
- Built and maintained dbt models to transform and standardize migrated data.
- Integrated dbt transformations and data quality tests within Airflow DAGs to ensure reliable, validated data delivery.
- Used Airflow, dbt, Python, and GitLab to manage data engineering workflows.

Product Description Generator with AWS Integration | Lambda, HTML, CSS, Open AI, Python, GEN AI

Sept 2025

- Built a serverless solution to generate product descriptions using OpenAI API
- Implemented AWS Lambda, API Gateway, and DynamoDB for scalable and efficient processing.
- automated end-to-end workflow for generating, storing, and retrieving product content.

AI-Powered E-commerce Product Assistant | Python, LangChain, ChromaDB, HuggingFace, Streamlit, GPT-2 March 2026

- Built AI-powered E-commerce assistant using RAG architecture (LangChain + ChromaDB) reducing customer support response time by 95%
- Automated end-to-end workflow for querying, retrieving and generating context-aware answers using GPT-2 LLM.

SKILLS

ETL & Data Workflow Development: SQL, SSMS, DBMS, Airflow, DBT, AWS, Azure, Python, Testing, Power BI, Dbeaver, Data pipeline, Grafana, Jenkins, Pyspark, Numpy, Pandas, Pycharm

Programming Languages: C++, Python

Generative AI & AI Tools: Generative AI, Prompt Engineering, OpenAI APIs, LLM Applications, AI Chatbot Development, GPT Models, AI Content Generation

Tools & Technologies: Visual Studio Code, Git, Jira, Azure AD, Trackspace, GitLab Copilot, AWS, Azure, MS Office Suite

Core Competencies: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Strong Debugging and Problem-Solving, Authentication and Authorization

Soft Skills: Communication Skills (Oral and Written), Quick Learner, Strong Analytical Abilities, Azure Devops, Scrum, Agile

CERIFICATIONS

AWS Developer Associate

June 2024

Proficient in deploying and managing cloud-based applications using AWS services.

Aws

Airflow Fundamental

December 2024

Proficient in designing and managing data pipelines using Apache Airflow for workflow orchestration.

Astronomers

EDUCATION

Lovely Professional University

July 2019 – July 2023

Bachelor of Technology in Computer Science and Engineering - 7.26 CGPA

Phagwara, India
